- ✓ Awards fund highly innovative R&D activities across all scientific fields, from very early proof of concept programs through late stage clinical trials. Budgets range from \$150,000 to \$150,000,000.
- ✓ Using FreeMind's proven methodical approach, our knowledgeable and experienced team of funding experts are dedicated to assisting organizations maximize their non-dilutive funding potential.
- ✓ FreeMind turns non-dilutive funding into a key component in any long-term sound financial strategy.

OUR SERVICES

STRATEGIC ASSESSMENT

Provides a robust, long-term, multi-submission granting strategy for each pipeline project. FreeMind is well versed in the interests, goals, agendas, and available funding opportunities of each funding source.

MACRO APPLICATION STRATEGY

Outline specific aims, scope of work, budgetary needs, as well as delineate any collaborators, subcontractors, or consultants required. We devise a timeline to submission and set an orderly division of responsibilities.

GRANT PRODUCTION

A combined writing effort, based on comprehensive templates drafted by project managers, yields the work product. The iterative review concludes when a well-structured scientifically sound application materializes.

SUBMISSION AND FOLLOW UP

Upon completion, the application is submitted. Post-submission we closely monitor the review process, and assist with pre-award negotiations, awaiting final decision by the granting agency.
