Orthocell Ltd

Orthocell Ltd is a regenerative medicine company dedicated to the development of an important new class of collagen medical devices, autologous cellular therapies and growth factors for the treatment of human tendons, ligaments, articular cartilage and soft tissue defects. Development to date has focused on two main products:

- The biological collagen scaffold 'Celgro®' for use as an augment to rotator cuff repair, guided bone regeneration and repair of articular cartilage; and
- Autologous Tenocyte Implantation ("Ortho-ATI®") for chronic, treatment resistant tendinopathy.
