Reproductive Health Science – Company Profile

Reproductive Health Science Ltd (RHS) is a developer of advanced single cell genomic technologies to improve health and research outcomes. Our EmbryoCollect™ kit, exclusively developed by RHS, provides a proprietary whole genome amplification and microarray solution specifically designed for Preimplantation Genetic Screening. EmbryoCollect™ offers the opportunity to bring testing in-house with easy to interpret results with no need for complicated genetic analysis and the flexibility to run small numbers of samples. DOPlify™ is a new kit from RHS for the lysis and whole genome amplification of single or few cells and is ideally suited to Next Generation Sequencing applications.
